

Binyamin Region in the Samaria Area – The stories of the Bible come to life!

The regional council of Binyamin graciously invited Amiel Tours to the region. They took us to amazing historical sites, we tasted delicious boutique wines and enjoyed a lovely lunch in Shilo. We started in the boutique winery of Psagot, located 20 minutes outside of Jerusalem. Planted upon the chalky terraces of the Binyamin region, the Psagot winery and its vineyards are part of a long-established tradition of settlement and winemaking in an area renowned for its exceptional vine-growing conditions.

We continued on to Ancient Shilo. We suggest to read through the early books of the Old Testament, and you shall see that Shilo is definitely a must-see spot for your clients. So many different stories in the Bible took place here and they are well illustrated as you tour the archaeological site.

Mount Gerizim was our next stop. The Israel Nature and Parks Authority has just opened this archeological site on the top of the mountain. Breathtaking views looking over Shilo will stay with you forever!

May we suggest:
