Covid-19 Vaccinations have begun

New Guidelines for
Incoming Tourism to
Israel

UAE and other Arab
Nations

Happy New Year from
Israel

Covid-19 Vaccination in Israel

Israel has begun to vaccinate its citizens. Over ½ Million Israelis have already received the vaccine. Medical staff and the over 60 population were to first to get in line. Israel at present leads the world in the rate at which its population is being vaccinated against Covid-19.

Please remember that Israel is quite isolated, like an Island, which makes travel so much safer. You can be confident that all is being done to keep your clients well and to make their journey to the Holy Land memorable.

We are almost there!

Lights of Hope and a new Outline for Incoming Tourism

Together we lit the Lights of Hope! Our parents taught us to never give up, to move forward and to believe that this too will pass.

A protocol pertaining to details for incoming tourism to Israel has been published by the **Israel Incoming Tour Operators Association** and I am very happy to share it with you.

Tourism experts anticipate the return of tourists to Israel to take place in **April 2021**. This has not been confirmed yet.

Please click [here](#) and read about the lines of action that were presented.

UAE and other Arab Nations

Opening dialogue and reaching agreements with our neighbors, like the UAE, have not stood still. Israel is now working on normalization accords with other countries as well, like Bahrain and Morocco. There is still more to come! Contact us for combined package tours at mngt@amiel.israel.net

Happy New Year!

2020 is coming to an end and we look with great anticipation to 2021! We are optimistic that tourism will return shortly, that we can work from our offices again and that life will be without restrictions..

May the New Year bring good health and joy and happiness to you and your families!
